

Fernandez Hospital Educational and Research
Foundation presents a HANDS-ON workshop on

Assisted Vaginal Birth (AVB)

Assisted Vaginal Birth Delivery is accomplished with the aid of instruments like vacuum or forceps. This is an alternative to caesarean section when indicated, and thus reduces the caesarean section rate.

Fernandez Hospital is conducting a Hands-on Workshop on Assisted Vaginal Birth, focusing on vacuum delivery (including KIWI cup) and forceps delivery. We invite you to join and participate in the interactive sessions to make it an interesting and enjoyable learning.

PROGRAMME OVERVIEW

- Introduction / Statement of Objectives
- Indications/Contraindications/Classifications
- Vacuum Delivery (including KIWI Cup Hands-on)
- The Art of Forceps
- Complications of Instrumental Delivery
- Special Situations: Trial of Forceps/ Aftercoming Head/Caesarean Section/Manual Rotation
